Advanced Topics in Types and Programming Languages

Course Description Advanced Topics in Mathematics II is a projectâ€•based math class. Students will have the opportunity to work individually and in groups to study a variety of topics. The course includes a heavy emphasis on using computers and programming with Mathematica.

Advanced Topics in Mathematics II - San Dieguito Union

Advanced Topics in Mathematics (#1298310) This simulation also records data for each trial including the burn probability, where the fire started, the percent of trees burned, and how long the fire lasted. This activity allows students to explore the idea of chaos in a simulation of a realistic scenario.
