NREL's Integrated Applications Center accelerates energy transitions through a system-of-systems approach that considers technology, policy, social, and market systems.

Integrated Energy Solutions | NREL

An integrated circuit or monolithic integrated circuit (also referred to as an IC, a chip, or a microchip) is a set of electronic circuits on one small flat piece (or "chip") of semiconductor material, normally silicon. The integration of large numbers of tiny transistors into a small chip results in circuits that are orders of magnitude smaller, cheaper, and faster than those constructed of ...
