A business process context for Knowledge Management

PDF | In this note, we want to make the point that BPM needs to consider the context of a BPM initiative much more than is currently being done. The management of processes in organizations has ...

Considering Context in Business Process Management: The

The six Phases of Business Processes - Business Communication and the Exchange of Value Göran Goldkuhl Centre for studies on humans, technology and organization (CMTO), Linköping University S-581 83 Linköping, Sweden and Jönköping International Business School, P.O 1026, S-551 11 Jönköping, Sweden Email: ggo@ida.liu.se ABSTRACT

The six Phases of Business Processes - Business

introduce this context-dependent (the context being "angry patients") process variant into their collection of business process models. This example demonstrates several principles that added value to the company, First, as already done in organizations nowadays, a thorough business process design phase that considered

Learning from Context to Improve Business Processes

Business process context is analysed in the second stage of the approach. This stage aims to understand context, to reason about it and to discover the context properties that influence a business process. For these purposes, context analysis (which has

Business Processes Contextualisation via Context Analysis

Business processes, context, context-awareness, case studies, change, adaptation INTRODUCTION Business Process Management (BPM) has received widespread interest in academia and the community of practice as a paradigm for the design, automation, and monitoring of an organisation's business processes.

Context Change Archetypes: Understanding the Impact of

We propose an approach for a Context-Aware Business Process Management that contemplates context in the lifecycle of processes within an organization. In this sense, context associated with the processes should be discovered, modeled, gathered, and used, and in a continuous way monitored and maintained.

Modeling and Using Context in Business Process Management

ment that BPM is about the management of business processes. Paul Harmon, of Business Process Trends, recently defined BPM as a management discipline focused on improving corporate performance by managing a company's business processes (Harmon, 2005a). Thus, process management is an integrated part of normal management.

What is business process management? - cdn.ttgtmedia.com

A business library (catalog) of business process and information models promotes business 106 efficiency by encouraging reuse of business processes or parts of predefined business processes. 107 In order for the

actual conduct of business to take place, ebXML provides a shared repository where
