In this scheme, funds move between the public, the banks and the central bank without any barriers. Each bank is a financial intermediary, but in aggregate, due to fractional reserve banking, money is created (multiplied) in the banking system.

Can banks individually create money out of nothing? â€” The

Not all objects are naturally social. A social object is one that connects the people who create, own, use,

critique, or consume it. Social objects are transactional, facilitating exchanges among those who encounter them.
