Science doesn't "will never and should never" work by someone having a 'vision' which he has convinced himself is the truth, and then trying to force some equations to fit the fantasy without any respect for evidence or for reasoning. Especially if in the meantime they go around claiming they've already proved it. Equations aren't a means of rhetoric.

Indeterminism is the idea that events (or certain events, or events of certain types) are not caused, or not caused deterministically.. It is the opposite of determinism and related to chance. It is highly relevant to the philosophical problem of free will, particularly in the form of metaphysical libertarianism. In science, most specifically quantum theory in physics, indeterminism is the ...
