The "conflict thesis" is a historiographical approach in the history of science which maintains that there is an intrinsic intellectual conflict between religion and science and that the relationship between religion and science inevitably leads to hostility; examples to support this thesis have commonly been drawn from the relations between science and religion in Western Europe.

### **Conflict thesis - Wikipedia**

Conflict resolution is conceptualized as the methods and processes involved in facilitating the peaceful ending of conflict and retribution. Committed group members attempt to resolve group conflicts by actively communicating information about their conflicting motives or ideologies to the rest of the group (e.g., intentions; reasons for holding certain beliefs) and by engaging in collective ...
