Sustainable fisheries and aquaculture for food security and nutrition A report by The High Level Panel of Experts on Food Security and Nutrition June 2014

Sustainable fisheries and aquaculture for food security

Early life and education. M. S. Swaminathan was born in Kumbakonam, Tamilnadu on 7 August 1925. He was the second son of surgeon Dr. M.K. Sambasivan and Parvati Thangammal Sambasivan. M.S. Swaminathan learnt from his father, "that the word 'impossible' exists mainly in our minds and that given the requisite will and effort, great tasks can be accomplished."

M. S. Swaminathan - Wikipedia

Food security is a measure of the availability of food and individuals' accessibility to it, where accessibility includes affordability. There is evidence of food security being a concern over 10,000 years ago, with central authorities in ancient China and ancient Egypt being known to release food from storage in times of famine. At the 1974 World Food Conference the term "food security" was ...

Food security - Wikipedia

The National Commission on Farmers, chaired by Prof. M. S. Swaminathan, submitted five reports through the period December 2004 - October 2006. Following from the first four, the final report focused on causes of farmer distresses and the rise in farmer suicides, and recommends addressing them through a holistic national policy for farmers. The findings and recommendations encompass issues of ...

Open Access journals are the major source of knowledge for young and aspiring generations who are keen in pursuing a career in sciences. This system provides easy access to networks of scientific journals. Authors that contribute their scholarly works to Open Access journals gain remarkable reputation as the research scholars explore these works extensively.

Free Access to Scientific Journals - Open Access Journals

Adoption of improved chickpea varieties increased more than two-fold in seven years, shows data from more than 600 households in Ethiopia. In just seven years, the percentage of households growing...

ICRISAT Happenings – ICRISAT

An outbreak of listeriosis in Massachusetts in 1983 raised serious questions about the efficacy of fluid milk pasteurization in inactivating *L. monocytogenes*. Case-control studies and food intake history of cases revealed that case-patients were significantly more likely to have consumed whole or pasteurized milk purchased from a specific grocery store chain.

These characteristics of human capital prompted Harlan Cleveland, former President of the World Academy of Art and Science, to observe that "the only limits are the limits to imagination and creativity". They led Aurelio Peccei, founder of the Club of Rome, to argue that human capital is the most underutilized of all forms of capital. ...
