Innovation can be simply defined as a "new idea, creative thoughts, new imaginations in form of device or method". However, innovation is often also viewed as the application of better solutions that meet new requirements, unarticulated needs, or existing market needs. Such innovation takes place through the provision of more-effective products, processes, services, technologies, or business ...

Innovation - Wikipedia

Medieval technology is the technology used in medieval Europe under Christian rule. After the Renaissance of the 12th century, medieval Europe saw a radical change in the rate of new inventions, innovations in the ways of managing traditional means of production, and economic growth. The period saw major technological advances, including the adoption of gunpowder, the invention of vertical ...

Introduction. Cancer is among the foremost medical problems in the developed world today. In Canada alone, 2 out of 5 people will develop cancer in their lifetime, and 1 in 4 people will die of cancer. Cancerous cells evolve rapidly and are heterogeneous, and are therefore extremely difficult to target specifically.

Cancer gene therapy: innovations in therapeutic delivery

ii advances hold great promise of further reducing costs, such as with drug treatments that decrease hospital stays and invasive surgeries. One study found that, on average, a \$1
