Irrigation in Africa south of the sahara - Home | Food and

Irrigating Africa. The north-south divide Not all corners of Africa under-utilize irrigation. Two-thirds of Africa's roughly 13,400 hectares of irrigation-equipped land is concentrated in just five countries, most of which are in northern Africa: Egypt, Morocco and Sudan; Madagascar and South Africa also have large irrigated areas. Unlike...

Irrigation and Climate Change in South Africa - nda.agric.za

In South Africa sprinkler irrigation system covers about 33%, drip irrigation system 11% and surface irrigation dominates with about 56% (FAO, 2005). Sprinkle irrigation is mainly developed for larger farms and is not very flexible and adaptable to the multitude of small plots usually found on small farms.

Irrigation technology in South Africa and Kenya - SciELO

Karoo Comprises the Orange River, South Africa's largest and longest, carrying more than 20% of the total river flow in the country. 1 This categorisation originates from a Department of Water Affairs and Forestry (DWAF) study into the availability and utilisation of water resources in South Africa, undertaken in 1997.

PRICING OF IRRIGATION WATER IN SOUTH AFRICA

Irrigation in South Africa is currently practised on 1.6 x 10⁶ ha. In 2000 it used 62% of the runoff water that was used by all sectors, or 39.5% of the exploitable runoff water (DWAF, 2004).
