SOM Appendix A - Centers for Medicare & Medicaid Services

Analyze, manage, and learn from patient safety incidents in any healthcare setting with the Canadian Incident Analysis Framework. Incident analysis is a structured process for identifying what happened, how and why it happened, what can be done to reduce the risk of recurrence and make care safer, and what was learned.

Incident Analysis - Canadian Patient Safety Institute

Health care proxies are legal documents, recognized in all 50 states, through which an agent or surrogate acts on behalf of the incapacitated patient to make treatment decisions.

Health Care Proxies and End of Life Care

The delivery of modern health care depends on groups of trained professionals and paraprofessionals coming together as interdisciplinary teams. This includes professionals in medicine, psychology, physiotherapy, nursing, dentistry, midwifery and allied health, along with many others such as public health practitioners, community health workers and assistive personnel, who systematically ...
