Concierge medicine (also known as retainer medicine) is a relationship between a patient and a primary care physician in which the patient pays an annual fee or retainer. This may or may not be in addition to other charges. In exchange for the retainer, doctors agree to provide enhanced care, including principally a commitment to limit patient loads to ensure adequate time and availability for ...

Analyze, manage, and learn from patient safety incidents in any healthcare setting with the Canadian Incident Analysis Framework. Incident analysis is a structured process for identifying what happened, how and why it happened, what can be done to reduce the risk of recurrence and make care safer, and what was learned.

Incident Analysis - Canadian Patient Safety Institute

Surveillance is critical for improving population health. Public health surveillance systems generate information that drives action, and the data must be of sufficient quality and with a resolution and timeliness that matches objectives. In the context of scientific advances in public health surveillance, changing health care and public health environments, and rapidly evolving technologies ...
