

### **sensation and perception goldstein pdf**

Perception (from the Latin perceptio) is the organization, identification, and interpretation of sensory information in order to represent and understand the presented information, or the environment.. All perception involves signals that go through the nervous system, which in turn result from physical or chemical stimulation of the sensory system. For example, vision involves light striking ...

Taste, gustatory perception, or gustation is one of the five traditional senses that belongs to the gustatory system.. Taste is the sensation produced when a substance in the mouth reacts chemically with taste receptor cells located on taste buds in the oral cavity, mostly on the tongue. Taste, along with smell and trigeminal nerve stimulation (registering texture, pain, and temperature ...
