Chapter III Towards sustainable cities Introduction Cities and towns have become the primary human living space. Since 2007, more than half of the world's population has been living in urban ...

Chapter III Towards sustainable cities - United Nations

city's ability to effectively host its residents. Cities always relish the opportunity to roll out the red carpet, putting their best faces forward and welcome their visitors. However, where the rubber meets the road in truly defining urban sustainability is how well cities perform in meeting and unburdening the everyday needs of their citizens.
